

## PUBLIC NOTICE

### **IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER**

#### **Maysville PWS Failure to Meet Turbidity & Chlorine Monitoring & Reporting Requirements**

*Este informe contiene información muy importante sobre su agua potable. Tradúzcalo o hable con alguien que lo entienda bien.*

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. We are also required to report monthly drinking water test results to the Missouri Department of Natural Resources by the 10<sup>th</sup> of the following month. Specifically, we failed to submit the monthly disinfection and turbidity report for the July 2025 monitoring period to the department by August 10, 2025, in violation of state and federal monitoring and reporting requirements. In addition, our system failed to notify the department of a malfunction and failed to meet operational and reporting monitoring requirements to ensure proper treatment and operation of the surface water treatment plant.

#### **What should I do?**

There is nothing you need to do at this time.

#### **What happened? What is being done? (Describe corrective action.)**

July 2025 reporting was not done correctly or in a timely manner, reporting is being done correctly now and done on time.
